

Easypay Module

- **Installation instructions for Magento 2.3**

1. Extract the **.zip** file at the root of the Magento installation
2. To install and activate the module you must run the following commands:
 - `php bin/magento module:enable Toogas_Easypay`
 - `php bin/magento setup:upgrade`
 - `php bin/magento setup:di:compile`
 - `php bin/magento setup:static-content:deploy`

- **Installation of the update for magento 2.3**

The upgrade process is the same as installation with the apart from having to be removed from the previous module before extracting the contents of the new **.zip** installation.

- **Setup instructions for Magento 2.3**

- **General**

After logging in to Backoffice Magento, you must access the Easypay payment methods and make the general settings:

The screenshot shows the Magento 2.3 Stores Configuration page. The left sidebar has the 'Stores' menu with 'Configuration' highlighted. The main content area shows the 'EasyPay' configuration page. The 'EasyPay' section is expanded, showing the 'Webhooks Configuration' tab. The fields are as follows:

Field	Value
Account ID (store view)	a00f02f4-96f7-4270-8ecf-7fe83610f5fa
API Key (store view)	c2914485-d5b3-4f8d-976f-a6f5771078da
Country (store view)	Portugal
Sandbox Mode (store view)	Yes

The screenshot shows the Magento 2.3 Configuration page. The left sidebar has the 'Configuration' menu with 'Payment Methods' highlighted. The main content area shows the 'EasyPay' configuration page. The 'EasyPay' section is expanded, showing the 'Webhooks Configuration' tab. The fields are as follows:

Field	Value
Account ID (store view)	a00f02f4-96f7-4270-8ecf-7fe83610f5fa
API Key (store view)	c2914485-d5b3-4f8d-976f-a6f5771078da
Country (store view)	Portugal
Sandbox Mode (store view)	Yes

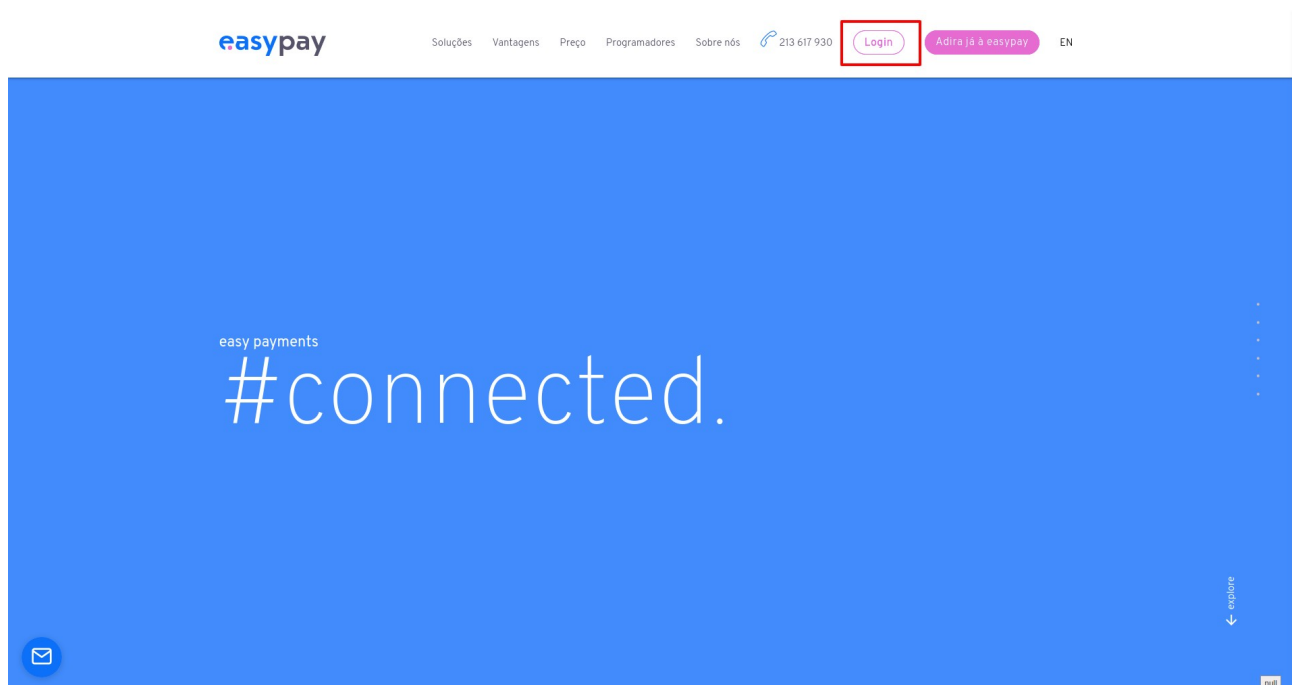

- **Account ID**
- **API Key**
- **Country** – Portugal by default.
- **Sandbox Mode (Yes/No)** –If you selected "Yes", we are over a testing environment, otherwise we are over the productive environment;

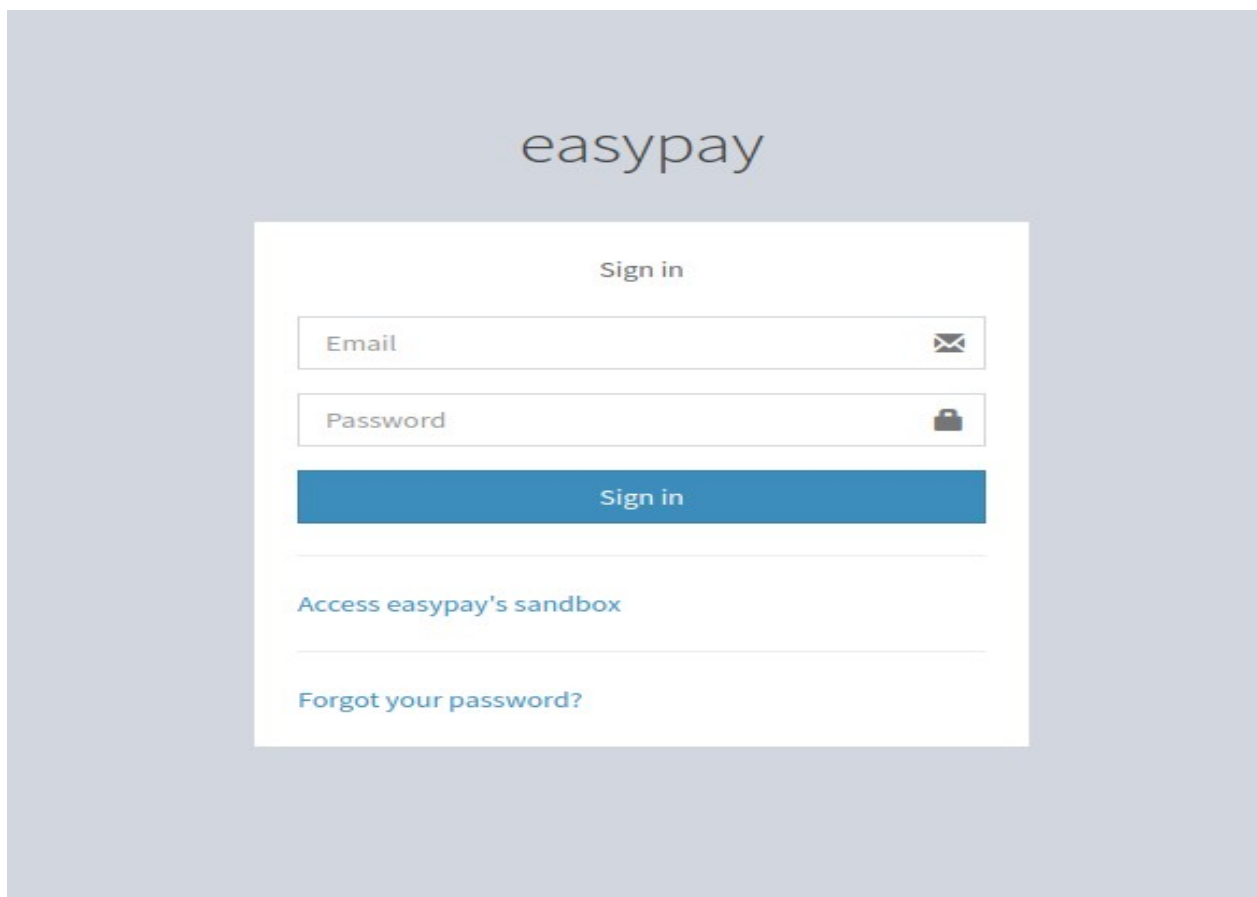

To get the Account ID and API Key of the productive environment, you must access the following address:

Easypay Live URL: <https://www.easypay.pt/pt>

To get the Account ID and API Key from the test environment, you must access the following address:

Easypay Test URL: <https://backoffice.test.easypay.pt>

And after logging in, you should do the following steps:

Web Services > Configuração API 2.0
